Current status :

Equal in value and cost

Predicted Status :

More value than cost in the Future

Old time records

The screenshot shows a web application interface for time tracking. At the top, there is a header bar with a dark background. On the left, a text input field contains the placeholder text "What are you working on?". To its right is a green dot followed by the text "WebHC". Further right is a tag icon. In the center of the header is a digital clock displaying "00:00:00". On the right side of the header is a blue button labeled "START" and a clock icon. Below the header is a table with a dark background. The table has two columns: "User" and "Time (h)". There are four rows of data, each with a colored square icon to the left of the user name. The colors are light orange, orange, yellow, and dark orange. The last row is a summary row with the word "Total" in a lighter gray font. The times are displayed in a white font.

User	Time (h)
Cserich Philipp	53:45
Thomas Boigner	86:39
Fabian Maurutschek	90:39
Bernhard Siegl	48:32
Total	279:35

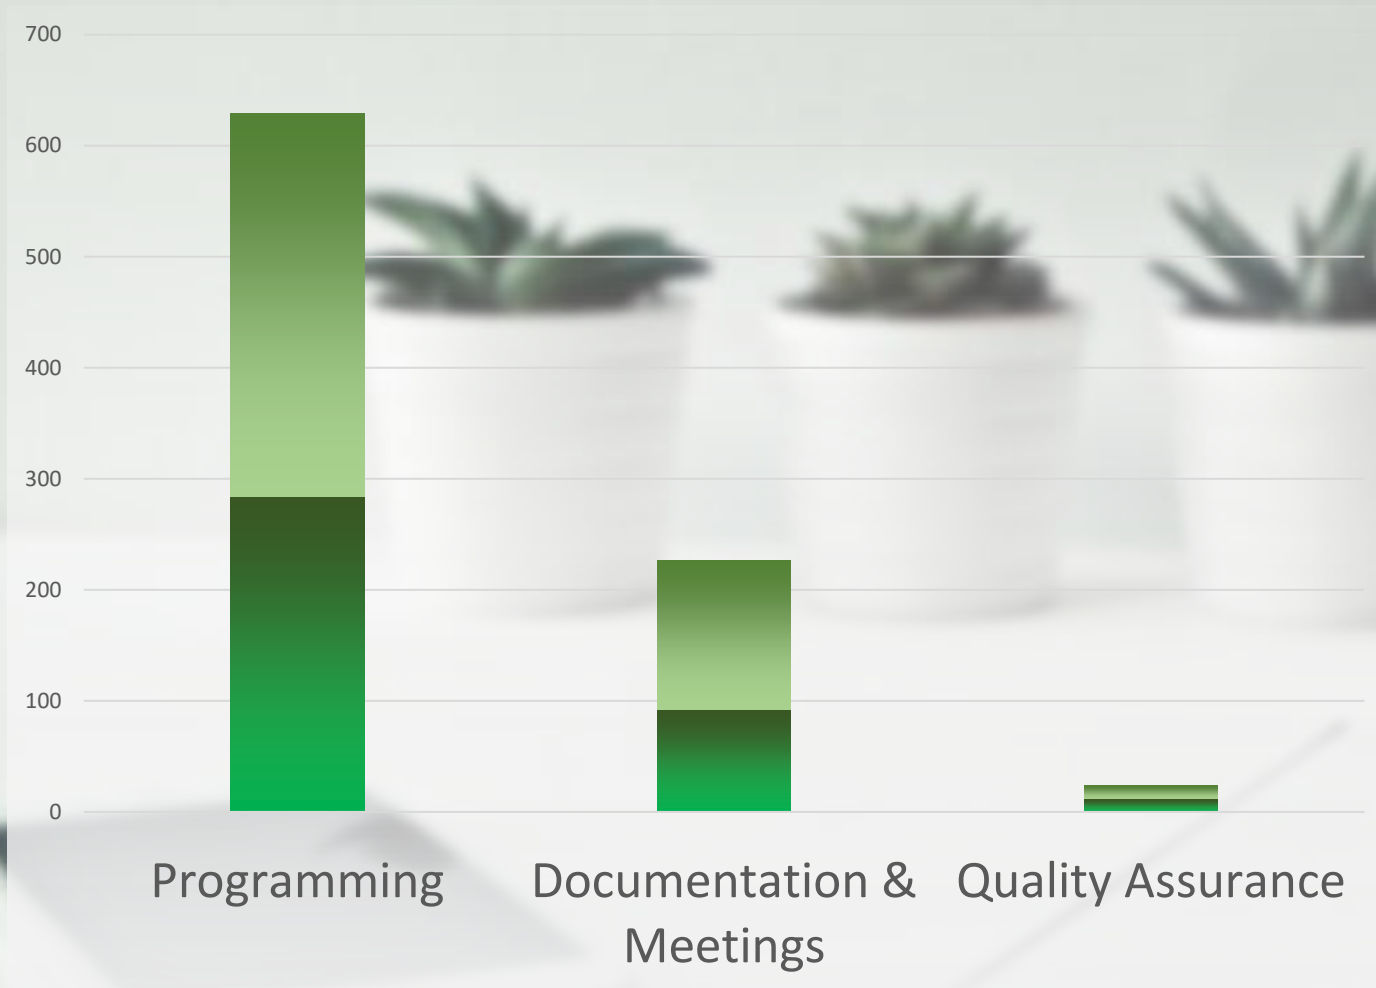

Updated time records

What are you working on?		• WebHC		00:00:00	START	⌚
	User		Time (h)			
		Cserich Philipp		93:23		
		Thomas Boigner		96:27		
		Fabian Maurutschek		113:48		
		Bernhard Siegl		71:57		
		Total		350:57
